

tiko has received the “**Solar Impulse Efficient Solution**” Label, rewarding profitable solutions to protect the environment.

Zürich Switzerland, 18th of January 2021 - tiko Energy Solutions AG solution was attributed the “**Solar Impulse Efficient Solution**” Label following an assessment performed by external independent experts and based on verified standards.

It is thereby joining the **#1000solutions** challenge, an initiative by the Solar Impulse Foundation to select solutions that meet high standards in profitability and sustainability and present them to decision-makers to fast-track their implementation. To receive the “Solar Impulse Efficient Solution” Label, **tiko** was thoroughly assessed by a pool of independent experts according to 5 criteria covering the three main topics of **Feasibility, Environmental** and **Profitability**.

All labelled solutions are part of the **#1000solutions** portfolio that will be presented to decision-makers in business and government by Bertrand Piccard, Chairman of the Solar Impulse Foundation. The aim of this initiative is to encourage the adoption of more ambitious environmental targets and fast-track the implementation of these solutions on a large scale.

About the “Solar Impulse Efficient Solution” Label

One of the first labels for positive impact businesses bringing together protection of the environment and financial viability, the “Solar Impulse Efficient Solution” Label is attributed following an assessment performed by external independent experts. In collaboration with renowned institutions, solutions applying for the label must go through a neutral methodology based on verified standards. This label serves as an award for clean and profitable solutions.

About the Solar Impulse Foundation

The Solar Impulse Foundation is dedicated to accelerating the implementation of clean and profitable solutions. Moreover, the Foundation is helping decision-makers in businesses and governments to achieve their environmental targets and adopt more ambitious energy policies, which are necessary to pull these solutions to market. A way to carry the success of the first solar-powered flight around the world further.

At **tiko**, we believe that the energy revolution comes from the people, for the people, and that a better earth with only be possible if we collectively change the way we consume energy.

Our flexible and modular technology enables innovative solutions for prosumers to maximize their self-consumption, and thus their return on investment. Consumers gain insight and control over their energy consumption and increase their comfort. We put this unique knowledge at the disposal of our partners, making them leaders of the energy revolution, and helping them to gain an innovative image among their customers. **tiko is a company from the ENGIE Group.**
